Ischemia reperfusion injury and cardioprotection: what's new?

16 March 2022

Agenda

10:00 **Opening and Introduction**
Alessandra Rossini, *Eurac Research*

10:10 **The bright side of endothelial signaling: geneless optical stimulation of TRPV1 as alternative strategy to induce pro-angiogenic Ca²⁺ signals.**
Francesco Moccia, *University of Pavia*

10:50 **Remote Ischemic Conditioning: What's New?**
Claudia Penna, *University of Turin*

11:30 **Ischemia Reperfusion Injury: the transplant surgeon's perspective**
Manuel Maglione, *Medical University Innsbruck*

The meeting will be held virtually on the platform ZOOM.
